As you make preparations for this fall's flu season, Cardinal Health has been working to provide purchasing opportunities on critical products that help diagnose flu, treat patients, and protect healthcare providers. This is being done in an effort to support our valued customers in coordinating planning efforts. Your Cardinal Health account representative will assist in placing these stocking orders. Due to the nature of these stocking orders, please keep in mind:

- **Certain high-demand items may require extended lead time. Product will be delivered as it becomes available**
- **Purchase orders cannot be cancelled**
- **Product is non-returnable**
- **Manufacturers have a finite amount of product – stocking orders will be first come, first serve**
- **Current pricing and standard terms apply**
- **Cardinal Health has increased inventory on select products, but encourages early orders to help ensure supply**
- **In the event that customer demand exceeds supply, Cardinal Health reserves the right to allocate products among all of our purchasers, as we deem appropriate**
