

New generic Differin® Cream 0.1% launch

SOURCESM Generics

July 27, 2010

Differin® Cream 0.1%

Now shipping to all First ScriptSM customers.

Fougera has just released a generic form of Differin® (adapalene) Cream 0.1%, which will be added to the Cardinal Health SOURCESM Generics offering. Fougera is the exclusive supplier for the AB-rated generic drug. At this time, an authorized generic form has not been released. Having U.S. brand sales of more than \$237 million, Differin® Cream 0.1% is used in the treatment of acne.

First ScriptSM benefits on generic Differin® Cream 0.1%

30 days of product

60 days dating and

60 days price protection available on initial First ScriptSM product shipments through September 28, 2010.

Reduce your purchasing costs with generics.

The following new generic item is now available for ordering from Cardinal Health and is being included in the auto-shipment to First ScriptSM pharmacies having recently purchased the brand equivalent.

Ordering information

Generic description	Strength/size	Form	Supplier	Rating	NDC number	CIN
Adapalene	0.1% 45gm	Cream	Fougera	AB	00168-0424-46	4330437

Please note that First ScriptSM product quantities are customized and based on a pharmacy's usage of the brand prior to the generic launch; however, the auto-shipments will never exceed 30 units of any single drug.

Not taking advantage of the 30-60-60 generics First ScriptSM benefits?

Contact your Cardinal Health sales consultant and see how easy it is for you to enroll in First ScriptSM and automatically receive 30 days of product on all new generic launches - plus 60 days of dating and 60 days of price protection.

First ScriptSM is a great way to help increase your pharmacy's generic conversion while also making sure you have a supply of new generic drugs as soon as they are released.

If you have any questions on this new generic launch, contact your Cardinal Health Sales Consultant.
