

Is *your* facility practicing Respiratory Etiquette?

Cardinal Health's Respiratory Etiquette Initiative

In accordance with Respiratory Etiquette Recommendations* as issued by the Centers for Disease Control and Prevention, Cardinal Health is encouraging its healthcare customers to implement a universal respiratory etiquette plan for their healthcare facility. The CDC has identified the use of various infection prevention related products in support of these recommendations.

Cardinal Health offers a variety of products for healthcare facilities that are mentioned in the recommendations. For further information, please contact your sales representative or visit our web site at www.cardinal.com/mps.

Cat. Nos. AT7511, AT7004

Facial Protection

These procedure masks with external ear loop attachments are ideal for use when practicing respiratory etiquette. Material construction consists of polypropylene inner facing, proprietary filtering media and polypropylene outer facing. Engineered to provide the greatest protection and comfort, which results in users compliance.

Cat. No.	Description
AT7511	Blue mask
AT7004	Yellow mask

Cardinal Health's Respiratory Etiquette Initiative is designed to assist healthcare facilities in complying with the CDC recommendations with the ultimate goal of helping to reduce the transmission of respiratory disease within healthcare facilities and among healthcare workers. The posters and mask holders are available as a courtesy from Cardinal Health. Please consult with your own infection control professional for guidance and further information.

Cat. Nos. 4H50, 4GEL1200H

4GEL32	32-oz bottle
4GEL1200	1200mL container
4GEL1200H	1200mL dispenser

Other products that may assist healthcare facilities in preparing for a respiratory disease outbreak as recommended by the CDC* include the following:

Cat. Nos. 8815N-8819NXX

Hand Protection

Esteem® stretchy nitrile exam gloves (finger textured and microtextured) are made of nitrile material. Both gloves are for situations with high risk and greater exposure to blood or body fluids or for use with chemotherapy agents and harsh chemicals.

Positive Touch® powder-free latex exam gloves are double coated for easy donning and a slip-resistant grip.

Esteem powder-free synthetic exam gloves have an exceptionally soft and stretchy latex-like fit, feel and appearance, with a polymer emulsion coating for effortless donning.

Cat. No.	Description
Esteem® Powder-Free Nitrile Examination Gloves	
8815N-8819NXX	XS-XXL with textured finger tips
8810N-8814NXX	XS-XXL with micro-texture
Positive Touch® Powder-Free Latex Examination Gloves	
8840-8844	XS-XL with textured grip
