

Presource[®] Procedure Pack Solutions

Clinical and Logistic Reviews

CardinalHealth

Clinical review

The **Presource**® team is comprised of knowledgeable clinicians with an average of 20 years of OR and supply chain management experience. The clinician follows a systematic process to ensure that we adapt our solutions to meet your changing needs. Our ongoing clinical reviews offer many benefits and are based on the specific goals established by you, the customer and the **Presource**® team. The focus of a **Presource**® clinical review may include:

Evaluation of current program efficiency

- Validate appropriate pack/module through review of customer's procedure volumes
- Identify high-volume, supply-intense procedures that may benefit from supply consolidation
- Identify opportunities for pack/supply consolidation; analyze the preference card system and evaluate preference card revision process

Cost savings initiatives

- Identify product standardization opportunities
- Evaluate clinical practices that may identify opportunities for increased efficiencies/savings

Process improvements

- Review existing case pick process for maximum efficiency
- Evaluate current products and practices for compliance with recommended safety standards
- Provide additional PackManager® training to maximize the benefit and value of this program

Clinical services are available to customers utilizing Presource® procedure pack solutions. Contact your local Presource® sales representative or customer service at 1.800.964.5227.

Logistic review

The **Presource**® team is comprised of Logistic Managers with extensive experience in hospital materials management, supply chain and case pick processes. Their primary focus is to work with our customers to assess, design, deliver and adapt hospital supply chain solutions.

Logistic reviews are performed to help ensure that we adapt our solutions to meet our customers changing needs. These reviews offer a variety of benefits and are focused on the specific goals established between you, the customer and the **Presource**® team. The objectives of a **Presource**® logistic review may include:

Evaluation of current program efficiency

- Review the case pick process in relation to the current **Presource**® program configuration
- Analyze space utilization in relation to the current **Presource**® program configuration
- Analyze product waste and returns

Financial initiatives

- Analyze inventory focusing on par levels, storage locations, etc.
- Identify additional global cost savings opportunities through practice and process changes
- Evaluate charging practices and recommendations that could result in increased charge capture

Process improvements

- Evaluate current supply chain to identify increased efficiencies based on practice and process change
- Review processes related to supply management (i.e., inventory, ordering, stocking, etc.)
- Recommend process improvements to decrease waste and product returns from the case pick process

Logistic services are available to customers utilizing **Presource® procedure pack solutions. Contact your local **Presource**® sales representative or customer service at 1.800.964.5227.**
