

Presource® Procedure Pack Solutions

Laceration Kits

CardinalHealth

Quality components help drive efficiency

Presource® offers a line of standard laceration kits that feature quality single-use components. In addition to our selection of standard kits, we can customize a kit to meet your needs using our extensive catalog of components.

By combining all supplies in one convenient kit, you are able to achieve efficiencies that enable you to focus on the safety and comfort of the patient.

Our laceration kits provide:

- Increased patient and practitioner safety through BD™ safety needles and syringes
- High-quality components in a single, sterile kit
- Assurance that safe, high-quality components are used every time
- Reduced on-hand inventory and waste
- Efficiencies in ordering, receiving and procedure setup

Standard or custom options

Our laceration kits come in both standard and custom configurations. If you have specific needs that are not met with our standard kit offering, please contact your **Presource**® sales representative to create a custom kit.

Promote safety with the BD™ SafetyGlide™ Needle

Easy to use:

- Single-handed activation
- Minimal change in technique
- Minimal training

Promotes safety and quality patient care:

- Secure and visible lock
- Virtually no splatter upon activation
- Activation occurs after needle is withdrawn:
No negative impact to the patient

Drives efficiency:

- Detachable needles fit on any size conventional syringe
- Facilitates standardization and SKU reduction
