

Collegiate Opportunities

Internships

It's your opportunity.
Make the most of it.

CardinalHealth

Explore your career interests with
a fast-paced, **dynamic Fortune 19
company** that's dedicated to making
healthcare safer and more productive.

It's an exciting time to work at Cardinal Health.

We're transforming our company by integrating our people, products and solutions to meet the changing needs of our customers, with the goal of becoming the premier healthcare company. An internship with Cardinal Health is your opportunity to join us in this mission, while exploring your career options.

At Cardinal Health, interns are valuable contributors to our business. Our opportunities focus on experiential learning — giving interns the hands-on, real experience they're looking for to build their careers. Interns gain an up-close view of how we're applying our scale and expertise to develop the innovative products and services that make healthcare more efficient.

The internship program at Cardinal Health helps prepare students for life in the Fortune 500. As an intern you are responsible for tasks which have a direct effect on profitability and the overall quality of the business. During this process you will learn about the organizational structure, teamwork, and people driven approach to business that are required to successfully run a large company.

Graham Smith

*Business Systems Analyst, Enterprise Solutions
(Intern alum '07)*

Our program

- **Early responsibility:** We encourage our managers to provide interns with one substantial project to work on throughout their internship, as well as day-to-day tasks. All interns will have an opportunity to showcase their work throughout the internship.
- **Experience:** Not only do interns gain experience from their daily work, but they have an opportunity to become immersed in our company culture and learn more about our business through facility tours.
- **Networking:** As an intern, you'll work side-by-side with other Cardinal Health employees. We also provide opportunities for you to meet with senior leaders in small-group settings and to work on projects with other interns.
- **Mentoring:** A mentoring component is built into Cardinal Health's internship program. This ensures our interns have access to managers who can answer their questions and help guide their work throughout the internship.
- **Feedback:** During the experience, interns will receive two performance evaluations to support their development. Interns are expected to perform to Cardinal Health's high standards.
- **Camaderie:** Did we mention fun? Our program includes opportunities for you to meet other interns and assume leadership roles as part of community service and other team-building events.

The Cardinal Health Internship program is a key part in beginning a successful career because it provides the opportunity to develop strong business acumen, expand upon leadership skills and be a part of projects that truly make a difference to our customers.

Lauren Ruwe
Specialist, Ethics and Compliance
(Intern alum '07)

Opportunities

A limited number of internships are available and are primarily based at our main offices in San Diego, California; Waukegan, Illinois, which is approximately 30 miles outside Chicago; and at our corporate headquarters in Dublin, Ohio, a Columbus suburb. Internships typically last 10–12 weeks during the summer between an intern's academic years. While we do hire interns year-round for a variety of opportunities, we regularly offer summer internships in:

- Engineering (R&D, packaging, software development)
- Finance
- Human Resources
- Information Technology
- Marketing
- Operations
- Sales

Who should apply

Cardinal Health primarily recruits current, full-time students who have completed their junior year of college and meet the following minimum requirements:

- Progression toward a bachelor's degree in an academic program related to the internship
- GPA of 3.0 or above on a 4.0 scale
- Relevant coursework and/or projects
- Previous internship experience preferred, but not required
- Strong leadership and communication skills
- Process and results orientation
- Extensive community service and/or extracurricular activities

cardinalhealth.com/college

Cardinal Health is a global company serving the healthcare industry with products, services and technologies that are helping our customers reduce costs, improve safety and deliver better care to patients. Headquartered in Dublin, Ohio, we employ more than 40,000 people on five continents and produce annual revenues of \$87 billion.

Our customers and capabilities

Cardinal Health develops and delivers products and services supporting pharmaceutical manufacturers and healthcare providers. We play a major role in healthcare: One-third of all U.S. prescriptions, medical/surgical and laboratory products flow through our advanced distribution network. We support healthcare providers — hospitals, physician offices, retail pharmacies and alternate sites of care — in the following areas of expertise:

- Automated supply dispensing
- Clinical consulting and information management
- Distribution services (laboratory, medical/surgical and pharmaceutical products)
- Medical products and technologies
- Medication automation
- Nuclear pharmacy services
- Pharmacy management
